50X1

2. Sam Crosby of the staff of the House Appropriations Committee called to inquire about any moves to investigate the Agency. I informed him of Senator William Langer's (R., N. Dak.) Resolution, S. Res. 338, to have the Senate Foreign Relations Committee investigate the Agency. He was also informed of the outbreak of resolutions for a Joint Committee on Intelligence which have been introduced in the last few weeks. This information seemed to serve his purpose.

3. The DCI briefed the Senate Foreign Relations Committee with particular emphasis on the Middle East situation. There were no obviously hostile questions, and the hearing was conducted in an atmosphere of informing the members. (See Memorandum for the Record.)

4. Delivered to Mr. William M. Jordan, Jr., secretary to Senator Richard B. Russell (D., Ga.), copies of pages from the FBI Daily Report of 27 July containing the text of a Moscow broadcast which misquoted statements made by the Senator in a Georgia speech. Also placed Senator Russell on the mailing list for the Daily Reports.
